2549 North New York
Wichita, Kansas 67219

Re: Hazardous Waste Compliance Inspection
EPA Identification Number KSD007246846

Dear Mr. Robertson:

I have reviewed your written response which outlines the actions you have taken to correct the violations cited during my November 3-4, 1998 inspection of your facility. Based on the information contained in your response and information from subsequent telephone conversations, you have satisfactorily addressed all violations cited except for the violation of Permit Condition III.F. (see Violation # 3 as originally listed on the Notice of Compliance/Non-Compliance).

In our telephone conversation today, you stated that although the cracks in the containment floors had been sealed, the planned re-surfacing of the Processing Area floor has not yet been accomplished. Safety-Kleen Wichita remains **out-of-compliance** to Permit Condition III.F. which requires permittee to "operate and maintain the containment system(s) for the container management unit(s) in accordance with...Section D.2 of the Part B permit application."

Please send a description of corrective actions taken and/or schedule for completion of necessary corrective actions to be taken to correct this remaining violation. Your written response must be received into this office by **June 4, 1999**.

Thank you for your cooperation with the hazardous waste management program of Kansas. If you have any further questions regarding the inspection or this letter, you may contact me via telephone, fax or e-mail listed below.

Respectfully,

Gilbert L. Perez, CHMM
